Part A - Explanatory Notes Pursuant to Malaysian Financial Reporting Standard ("MFRS") 134 and Policy Document on Financial Reporting Issued by Bank Negara Malaysia

A1. Basis of Preparation

The unaudited condensed interim financial statements for the 2nd quarter and financial half year ended 30 June 2026 have been prepared under the historical cost convention except for the following assets and liabilities which are stated at fair values: financial assets at fair value through profit or loss ("FVTPL"), financial investments at fair value through other comprehensive income ("FVOCI"), derivative financial instruments and investment properties.

The unaudited condensed interim financial statements have been prepared in accordance with MFRS 134: Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB") and Chapter 9, Part K of the Listing Requirements of Bursa Malaysia Securities Berhad. The unaudited condensed interim financial statements should be read in conjunction with the annual audited financial statements of the Group and of the Bank for the financial year ended 31 December 2025. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and of the Bank since the financial year ended 31 December 2025.

The unaudited condensed interim financial statements incorporated those activities relating to the Islamic banking business which have been undertaken by the Group. Islamic banking business refers generally to the acceptance of deposits and granting of financing under the principles of Shariah.

The material accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent annual financial statements for the financial year ended 31 December 2025, except for the adoption of the following during the current financial period:

Effective for annual periods commencing on or after 1 January 2026

- Amendments to MFRS 9 Financial Instruments and MFRS 7 Financial Instruments: Disclosures - Contracts Referencing Nature-dependent Electricity

Amendments to MFRS 9 Financial Instruments and MFRS 7 Financial Instruments: Disclosures - Contracts Referencing Nature-dependent Electricity - The amendments include, but are not limited to, the following:

- clarify the application of the 'own-use' exception as per paragraph 2.4 of MFRS 9;
- permit an entity to apply hedge accounting in MFRS 9 when these contracts are used as hedging instruments; and
- introduce new disclosure requirements in MFRS 7 to help users of financial statements understand the effects these contracts have on the amount, timing and uncertainty of an entity's future cash flows and financial performance.

The adoption of the above Amendments to MFRS Accounting Standards did not have any financial impact on the financial statements of the Group and of the Bank.

The following MFRS Accounting Standards and Amendments to MFRS Accounting Standards have been issued by MASB that are applicable to the Group and the Bank but are not yet effective:

Effective for annual periods commencing on or after 1 January 2027

- MFRS 18 Presentation and Disclosure in Financial Statements
- Amendments to MFRS 19 Subsidiaries without Public Accountability: Disclosures
- Amendments to MFRS 121 The Effects of Changes in Foreign Exchange Rates - Translation to a Hyperinflationary Presentation Currency
- Amendments to the Fair Value Option for Investments in Associates and Joint Ventures (Amendments to MFRS 128 Investments in Associates and Joint Ventures)

PUBLIC BANK BERHAD
Company Registration No.: 196501000672 (6463-H)

A1. Basis of Preparation (continued)

The following MFRS Accounting Standards and Amendments to MFRS Accounting Standards have been issued by MASB that are applicable to the Group and the Bank but are not yet effective (continued):

Effective for annual periods commencing on or after 1 January 2029

- MFRS 20 Regulatory Assets and Regulatory Liabilities

Effective date of these Amendments to Standards has been deferred, pending further announcement

- Amendments to MFRS 10 Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

MFRS 18 Presentation and Disclosure in Financial Statements - The new standard introduces new requirements on presentation within the statement of profit or loss. It also requires disclosure of management-defined performance measures and includes enhanced principles on aggregation and disaggregation of financial information which apply to the primary financial statements and the notes.

Amendments to MFRS 19 Subsidiaries without Public Accountability: Disclosures - Amendments to MFRS 19 incorporate reduced disclosure requirements for new and amended MFRS Accounting Standards issued by the MASB as listed below, which reflect the changes that take effect up to 1 January 2027, when MFRS 19 will be applicable:

- MFRS 18 Presentation and Disclosure in Financial Statements
- Supplier Finance Arrangements (Amendments to MFRS 107 and MFRS 7)
- International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112)
- Lack of Exchangeability (Amendments to MFRS 121)
- Amendments to the Classification and Measurement of Financial Instruments (Amendments to MFRS 9 and MFRS 7)

Amendments to MFRS 121 The Effects of Changes in Foreign Exchange Rates - Translation to a Hyperinflationary Presentation Currency - These amendments address how entities should translate financial statements from a non-hyperinflationary currency into a hyperinflationary presentation currency. This aims to improve consistency and clarity in financial reporting under such conditions.

Amendments to the Fair Value Option for Investments in Associates and Joint Ventures (Amendments to MFRS 128 Investments in Associates and Joint Ventures) - The amendments clarify the eligibility to elect the fair value option for investments in associates and joint ventures at fair value through profit or loss in accordance with MFRS 9. The amendments clarify that entities whose main business activity is investing in particular types of assets, as specified in MFRS 18 Presentation and Disclosure in Financial Statements, are included within the scope of entities eligible to apply the fair value option.

MFRS 20 Regulatory Assets and Regulatory Liabilities - MFRS 20 introduces accounting requirements for regulatory assets and regulatory liabilities arising from specified rate-regulated activities. The Group and the Bank are not subject to the type of rate regulation within the scope of MFRS 20.

Amendments to MFRS 10 Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - The amendments clarify that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not), as defined in MFRS 3 Business Combinations. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

The adoption of the above MFRS Accounting Standards and Amendments to MFRS Accounting Standards is not expected to have any financial impact on the financial statements of the Group and of the Bank.

A28. Derivative Financial Instruments (continued)

- ii) The Group's and the Bank's derivative financial instruments are subject to market, credit and liquidity risk, as follows:

Market Risk

Market risk on derivatives is the potential loss to the value of these contracts due to changes in price of the underlying items such as equities, interest rates, foreign exchange, credit spreads, commodities or other indices. The notional or contractual amounts provide only the volume of transactions outstanding at the reporting date and do not represent the amounts at risk. Exposure to market risk may be reduced through offsetting items from on and off-balance sheet positions.

Credit Risk

Credit risk arises from the possibility that a counterparty may be unable to meet the terms of a contract in which the Group and the Bank have a gain in a contract. As at the reporting date, the amounts of credit risk in the Group and the Bank, measured in terms of the cost to replace the profitable contracts, were RM932,844,000 (2025: RM224,574,000) and RM922,015,000 (2025: RM221,437,000) respectively. These amounts will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

Liquidity Risk

Liquidity risk on derivatives is the risk that the derivative position cannot be closed out promptly. Exposure to liquidity risk is reduced through contracting derivatives where the underlying items are widely traded.

- iii) Cash Requirements of the Derivatives

Cash requirements of the derivatives may arise from margin requirements to post cash collateral with counterparties as the fair value moves beyond the agreed upon threshold limits in the counterparties' favour, or upon downgrade in the Bank's credit ratings. As at the reporting date, the Group and the Bank had posted cash collateral of RM119,724,000 (2025: RM364,825,000) on their derivative contracts.

- iv) There have been no changes since the end of the previous financial year in respect of the following:
- a) the types of derivative financial contracts entered into and the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
 - b) the risk management policies in place for mitigating and controlling the risks associated with these financial derivative contracts; and
 - c) the related accounting policies.

The above information, policies and procedures in respect of derivative financial instruments of the Group and of the Bank are discussed in the annual audited financial statements for the financial year ended 31 December 2025 and Pillar 3 Disclosures section of the 2025 Annual Report.

A29. a) Fair Value Measurements

Determination of Fair Value and Fair Value Hierarchy

The Group and the Bank classify financial instruments and non-financial assets which are measured at fair value according to the following hierarchy, reflecting the significance of inputs used in making the fair value measurements:

Level 1 - Quoted market prices: quoted prices (unadjusted) in active markets for identical instruments;

Level 2 - Fair values based on observable inputs: inputs other than quoted prices included within Level 1 that are observable for the instrument, whether directly (i.e. prices) or indirectly (i.e. derived from prices), are used; and

Level 3 - Fair values derived using unobservable inputs: inputs used are not based on observable market data and the unobservable inputs may have a significant impact on the valuation of the financial instruments and non-financial assets.

The following tables show the Group's and the Bank's financial instruments and non-financial assets which are measured at fair value at the reporting date analysed by the various levels within the fair value hierarchy:

A29. a) Fair Value Measurements (continued)

Determination of Fair Value and Fair Value Hierarchy (continued)

For financial instruments measured at fair value, where available, quoted and observable market prices in an active market or dealer price quotations are used to measure fair value. These include listed equity securities, price quotations from Bond Pricing Agency Malaysia and broker quotes on Bloomberg/Reuters.

Where such quoted and observable market prices are not available, fair values are determined using appropriate valuation techniques, which include the use of mathematical models, such as discounted cash flow models and option pricing models, comparison to similar instruments for which market observable prices exist and other valuation techniques. The valuation techniques used incorporate assumptions regarding discount rates, interest/profit rate yield curves, estimates of future cash flows and other factors, as applicable. Changes in these assumptions could materially affect the fair values derived. The Group and the Bank generally use widely recognised valuation techniques with market observable inputs, if available, for the determination of fair value, which require minimal management judgment and estimation, due to the low complexity of the financial instruments held.

The fair values of investment properties located in Malaysia and Singapore are determined using comparison method by reference to the recent sales prices of comparable properties, adjustments are made where dissimilarities exist. The fair values of investment properties located in Hong Kong are determined using comparison method by reference to recent sales prices of comparable properties on a price per square meter basis. A significant change in the price per square meter will result in a significant change in the fair value of the investment properties in Hong Kong.

b) Gains/Losses Arising from Fair Value Changes of Financial Liabilities

Other than derivative financial instruments where the fair value changes are recognised as derivative financial assets or liabilities, as disclosed in Note A28, there were no gains or losses arising from fair value changes of other financial liabilities.

A30. Capital Adequacy (continued)

- a) The capital adequacy ratios of the Group and of the Bank (continued):

Regulatory capital requirements

The capital adequacy ratios of the Group and of the Bank are computed in accordance with BNM's CAF on Capital Components, Basel II - Risk-Weighted Assets, Operational Risk and Exposures to Central Counterparties.

The minimum regulatory capital adequacy ratios before including capital conservation buffer ("CCB"), countercyclical capital buffer ("CCyB") and higher loss absorbency ("HLA") requirement for CET I capital ratio, Tier I capital ratio and total capital ratio are 4.5%, 6.0% and 8.0% respectively.

Banking institutions are also required to maintain a CCB of 2.5% and a CCyB above the minimum regulatory capital adequacy ratios. A CCyB is required to be maintained if this buffer is applied by regulators in countries which the Group and the Bank have exposures to, determined based on the weighted average of prevailing CCyB rates applied in those jurisdictions. The Group and the Bank have applied CCyB on their private sector credit exposures outside Malaysia in line with the respective jurisdictions' requirement to maintain their CCyB. The CCyB is not a requirement for exposures in Malaysia yet but may be applied by regulators in the future.

HLA requirement is applicable to financial institutions designated as domestic systemically important banks ("D-SIBs"). Arising from this, the Group which is designated as a D-SIB by BNM is required to maintain an additional capital buffer of 0.5% to the regulatory capital requirements, in line with the BNM's D-SIB Framework.

- b) The breakdown of risk-weighted assets by each major risk category of the Group and of the Bank is as follows:

	Group		Bank

c) The capital adequacy ratios of the banking subsidiary companies of the Bank are as follows (continued):

- ¹ The risk-weighted assets of Public Islamic Bank Berhad ("PIBB") are computed based on Standardised Approach for Credit, Market and Operational Risk. The capital adequacy ratios are computed in accordance with BNM's CAF for Islamic Banks which cover Capital Components, Risk-Weighted Assets, Operational Risk and Exposures to Central Counterparties. The minimum regulatory capital adequacy requirements before including CCB and CCyB for CET I capital ratio, Tier I capital ratio and total capital ratio are 4.5%, 6.0% and 8.0% respectively. PIBB is required to maintain a CCB of 2.5% and a CCyB if this buffer is applied by regulators in countries which PIBB has exposures to.
- ² The risk-weighted assets of Public Investment Bank Berhad ("PIVB") are computed based on Standardised Approach for Credit, Market and Operational Risk. The capital adequacy ratios are computed in accordance with BNM's CAF which cover Capital Components, Risk-Weighted Assets, Operational Risk and Exposures to Central Counterparties. The minimum regulatory capital adequacy requirements before including CCB and CCyB for CET I capital ratio, Tier I capital ratio and total capital ratio are 4.5%, 6.0% and 8.0% respectively. PIVB is required to maintain a CCB of 2.5% and a CCyB if this buffer is applied by regulators in countries which PIVB has exposures to.
- ³ The risk-weighted assets of Public Bank (L) Ltd are computed based on the Standardised Approach for Credit and Market Risk and the Basic Indicator Approach for Operational Risk. The capital adequacy ratios are computed in accordance with the Banking Capital Adequacy Framework - Guidelines on Capital Components and Risk Weighted Assets issued by the Labuan Financial Services Authority. The minimum regulatory capital adequacy requirements for CET I capital ratio, Tier I capital ratio and total capital ratio are 4.5%, 6.0% and 8.0% respectively.
- ⁴ These two subsidiary companies have adopted the Standardised Approach for Credit, Market and Operational Risk. The capital adequacy ratios of these two subsidiary companies are computed in accordance with the provisions of the Banking Ordinance relating to Basel III capital standards and the Banking (Capital) Rules. These two subsidiaries are required to maintain a CCB of 2.5% and a CCyB of 0.5% as imposed by Hong Kong Monetary Authority to their private sector exposures in Hong Kong.

The Group recorded a pre-tax profit of RM4,708.4 million for the financial half year ended 30 June 2026, an increase of RM62.2 million or 1.3% as compared with the pre-tax profit in the corresponding period of the previous year of RM4,646.2 million. Net profit attributable to equity holders increased by 2.0% over the same period to RM3,576.3 million. In the current period, non-interest income grew by RM186.6 million (12.0%), mainly driven by higher unit trust related fee income and foreign exchange income. Net interest and Islamic banking income increased by RM36.2 million (0.6%), supported by healthy loans and financing growth. The improved performance was partially offset by increase in allowance for impairment on loans/financing of RM94.1 million arising from normalisation of credit charge, with credit charge at 7 basis points; whereas other operating expenses increased by RM61.9 million (2.4%).

Other comprehensive loss (net) of the Group for the current period decreased by RM125.2 million to RM162.2 million, mainly attributable to gains on the translation of foreign operations, compared with losses recorded in the corresponding period of the previous year, and lower losses on cash flow hedges. These were partially offset by losses on revaluation of financial investments in the current period, compared with gains recognised in the corresponding period of the previous year.

The Group's profit continued to be supported by healthy loans and customer deposits growth. Gross loans grew by RM13.2 billion or at an annualised rate of 5.9% to RM458.9 billion as at 30 June 2026 as compared with RM445.8 billion as at 31 December 2025, mainly contributed by domestic SME financing, residential property financing, and hire purchase financing which achieved annualised growth of 12.1%, 4.3% and 6.5% respectively. Total deposits from customers increased by RM10.4 billion or at an annualised rate of 4.7% over the same period to RM457.6 billion as at 30 June 2026. The Group's gross impaired loans ratio remained stable at 0.54% as at 30 June 2026, significantly lower than the industry's gross impaired loans ratio of 1.43%.

The Group's Common Equity Tier I capital ratio, Tier I capital ratio and total capital ratio stood at a healthy level of 13.9%, 13.9% and 16.5% respectively. The Group's liquidity position also remained stable and healthy with gross loans to fund and equity ratio maintained at 83.9% as at 30 June 2026.

B1. Performance Review (continued)

Current Year-to date vs. Previous Year-to-date (continued)

The performance of the respective operating segments for the financial half year ended 30 June 2026 as compared to the previous year corresponding period is analysed as follows:

	Group		Variance	
	Half Year Ended	Half Year Ended		
	30 June	30 June		
	2026	2025		
Profit Before Tax by Segments:	RM'000	RM'000	RM'000	%

Overseas operations	185,666	204,733	(19,067)	(9.3)
	4,708,386	4,646,190	62,196	1.3

- 1) Retail operations – Pre-tax profit decreased marginally by RM9.1 million (0.4%) to RM2,200.3 million.
- 2) Hire purchase – Pre-tax profit decreased by RM68.6 million (17.6%) to RM320.6 million, mainly due to higher loan/financing impairment allowance and higher other operating expenses.
- 3) Corporate lending – Pre-tax profit decreased by RM57.2 million (14.3%) to RM343.2 million which was mainly due to lower net writeback of loan/financing impairment allowance, lower fee income and lower net interest income.
- 4) Treasury and capital market operations – Pre-tax profit increased by RM34.5 million (25.1%) to RM172.3 million which was arising from higher investment income and improvement in interest gapping activities.
- 5) Investment banking – Pre-tax profit increased by RM8.8 million (29.3%) to RM39.0 million, mainly due to higher stock-broking and corporate advisory fee income.
- 6) Fund management – Pre-tax profit increased by RM67.1 million (16.6%) to RM470.5 million. The improved performance was mainly due to higher management fee from higher average net asset value of funds, coupled with higher fees from strong performance in unit trust sales.
- 7) General insurance – Pre-tax profit decreased by RM16.3 million (8.3%) to RM181.3 million which was mainly due to lower investment income.
- 8) Head office, funding center and others – Pre-tax profit improved by RM122.0 million (18.1%) to RM795.5 million which was mainly due to higher net interest/financing income from funding and investment activities.
- 9) Overseas operations – Pre-tax profit decreased by RM19.1 million (9.3%) to RM185.7 million. Apart from the appreciation of average rate of Ringgit Malaysia against other currencies which exerted pressure on profitability, overseas operations were also impacted by compression in net interest margins and decline in non-interest income, but were partially mitigated by lower allowance for loan impairment.

B1. Performance Review (continued)

Current Quarter vs. Previous Year Corresponding Quarter

Key Profit or Loss Items:	Group		Variance	
	2nd Quarter Ended			
	30 June	30 June	RM'000	%
	2026	2025		
	RM'000	RM'000

Other comprehensive income / (loss) (net)	80,991	(272,150)	353,141	> 100.0

For the 2nd quarter ended 30 June 2026, the Group registered a pre-tax profit of RM2,393.1 million, an increase of RM59.5 million or 2.5% as compared with RM2,333.6 million in the corresponding quarter of the previous year. Net profit attributable to equity holders registered a higher increase of RM64.4 million or 3.7% over the same period to RM1,824.6 million. The improved performance was mainly attributable to higher non-interest income of RM165.7 million or 21.3%, mainly driven by improved sales of trust units and higher unit trust management fee income. These were partially offset by higher impairment on loans/financing of RM81.1 million due to normalisation of credit charge and higher other operating expenses of RM26.3 million (2.0%).

Other comprehensive income (net) of the Group for the current quarter amounted to RM81.0 million, compared with other comprehensive loss (net) of RM272.2 million in the corresponding quarter of the previous year. The favourable variance was mainly attributable to gains on the translation of foreign operations, compared with losses recorded in the corresponding quarter of the previous year, and lower losses on cash flow hedges. These were partially offset by lower gains on revaluation of financial investments.

Performance of the respective operating segments for the 2nd quarter ended 30 June 2026 as compared with the previous year corresponding quarter is analysed as follows:-

	2nd Quarter Ended			
	30 June	30 June		
	2026	2025	Variance	
Profit Before Tax by Segments:	RM'000	RM'000	RM'000	%

Head office, funding center and others	402,782	326,536	76,246	23.3
Total domestic operations	2,309,794	2,256,640	53,154	2.4
Overseas operations	83,340	76,999	6,341	8.2
	2,393,134	2,333,639	59,495	2.5

1) Retail operations – Pre-tax profit increased by RM26.5 million (2.4%) to RM1,150.8 million, mainly due to higher fee income and other income, partially offset by lower net interest/financing income and higher loan/financing impairment allowance.

2) Hire purchase – Pre-tax profit decreased by RM68.0 million (35.4%) to RM124.1 million which was mainly due to higher loan/financing impairment allowance.

B1. Performance Review (continued)

Current Quarter vs. Previous Year Corresponding Quarter (continued)

- 3) Corporate lending – Pre-tax profit decreased by RM41.1 million (19.9%) to RM165.8 million. The decrease in profit was mainly due to lower fee income and lower net writeback of loan/financing impairment allowance.
- 4) Treasury and capital market operations – Pre-tax profit increased by RM7.5 million (8.0%) to RM101.0 million. The improved performance was mainly due to higher investment income but was partially offset by lower net interest income.
- 5) Investment banking – Pre-tax profit increased by RM10.8 million (88.6%) to RM23.0 million which was mainly due to higher stock-broking and corporate advisory fee income.
- 6) Fund management – Pre-tax profit increased by RM58.7 million (30.0%) to RM254.0 million, mainly due to higher management fee from higher average net asset value of funds and higher fee on sale of trust units. These were partially offset by higher other operating expenses.
- 7) General insurance – Pre-tax profit decreased by RM17.4 million (16.4%) to RM88.4 million which was mainly due to lower investment income.
- 8) Head office, funding center and others – Pre-tax profit increased by RM76.2 million (23.3%) to RM402.8 million, mainly due to higher net interest/financing income from funding and investment activities.
- 9) Overseas Operations – Pre-tax profit increased by RM6.3 million (8.2%) to RM83.3 million. The improved performance was mainly due to lower loan impairment allowance but was partially offset by lower net interest income.

Other comprehensive income / (loss) (net)	80,991	(243,228)	324,219	> 100.0

The Group registered a pre-tax profit of RM2,393.1 million, an increase of RM77.9 million or 3.4% as compared with the pre-tax profit of RM2,315.3 million for the immediate preceding quarter ended 31 March 2026. Net profit attributable to equity holders increased by RM72.8 million or 4.2% over the same period to RM1,824.6 million. For the current quarter, non-interest income improved by RM150.7 million or 19.0%, supported by higher unit trust related fee income, higher investment income and foreign exchange income. Net interest and Islamic banking income increased by RM24.8 million (0.9%). Loan/financing impairment allowance increased by RM63.1 million while other operating expenses increased by RM30.7 million (2.4%).

Other comprehensive income (net) of the Group for the current quarter amounted to RM81.0 million, compared with other comprehensive loss (net) of RM243.2 million in the immediate preceding quarter. The favourable variance was mainly attributable to gains on the translation of foreign operations and revaluation of financial investments, compared with losses recorded in the immediate preceding quarter.

B3. Prospects for 2026

The ongoing uncertainties surrounding geopolitical tensions, heightened volatility in global financial markets, trade tariffs and persistent fiscal imbalances are expected to pose challenges to global growth. Consequently, the global economy is expected to grow at a relatively moderate pace in 2026. Nevertheless, resilient labour markets, structural reforms as well as continued investments in technological advancement and digitalisation are expected to provide some support. In addition, any lasting settlement in the Middle East conflict would provide significant support to the global economy.

The Malaysian economy will continue to be anchored by domestic demand and supportive policies. The economic growth will be sustained by household spending, expansion in investments as well as steady exports and tourism activities. Household spending will be underpinned by healthy employment conditions, wage growth and income related policy measures. Strong investment activity will be supported by the realisation of approved projects as well as continued rollout of projects under the national masterplans.

Despite the ongoing uncertainties, the Malaysian banking sector remains resilient, underpinned by ample liquidity and healthy capital buffers. The Public Bank Group will continue to uphold its commitment to further strengthen its role as a financial intermediary in support of national development. The Group will continue to prioritise prudence in the management of credit risk, uphold strong corporate governance and effective risk management practices to safeguard stakeholder value.

The Public Bank Group will strive to maintain its market leading position in the domestic retail consumer as well as SME through its multi-delivery channels and efficient customer service. The Group will remain focused on its core financing segments, namely the residential property financing, passenger vehicles financing and the SME financing businesses.

In addition to its core financing and deposit businesses, non-interest income remains a key contributor to the Public Bank Group's performance and longer term growth. The Group continues to strengthen its private retail unit trust and wealth management segments through the diversification and enhancement of its product offerings.

The Public Bank Group has established a strong market presence in the Malaysian general insurance segment with the acquisition of LPI Capital Bhd on 4 December 2024. The Group will actively deepen collaboration with LPI Group to offer a wide range of products in the market.

Amid a volatile capital market, the Public Bank Group will remain vigilant and prudent in growing the treasury business, while the Group's risk management capabilities continue to navigate ongoing market uncertainties.

The Public Bank Group will continue to offer a comprehensive range of Shariah-compliant products and services, leveraging on the Group's well-established brand, extensive network of branches and operational infrastructure.

The Public Bank Group will also strengthen its regional presence while maintaining prudent management practices amidst the persistent headwinds in the global environment.

The Public Bank Group remains committed to embedding sustainability in its core practices, guided by its focus on decarbonisation, climate resilience and inclusive growth. The Group is on course to achieve Carbon Neutral position (Scope 1 and Scope 2) by 2030, Net Zero Carbon by 2050 and RM100 billion in sustainable finance by 2030. Going forward, the Group will continue to expand sustainable financing and innovative green solutions, integrating climate risk into business and credit decisions as well as strengthen supply chains and stakeholder engagements to support long term value creation.

The Public Bank Group remains committed to further strengthen its information and communication technology infrastructure for enhanced operational efficiency and resilience. The Group will continue to embrace modern technologies to enhance its service delivery standards to cater to evolving customer needs.

The Public Bank Group will also continue to enhance its cybersecurity efforts to manage risks of cyber frauds and scams. The Group is highly committed to safeguarding customers' information and reinforcing cyber resilience and operational integrity.
